# PERSONAL INFORMATION

## WELCOME TO OUR OFFICE

We appreciate the opportunity to serve you. As we endeavour to ensure that your health outcomes are met, we ask you to assist us by completing the following information.

Today's Date \_\_\_\_\_

Last Name \_\_\_\_\_

First Name \_\_\_\_\_ Preferred Name \_\_\_\_\_

If under 18: Mother's Name \_\_\_\_\_ Father's Name \_\_\_\_\_

Address \_\_\_\_\_

City \_\_\_\_\_ State \_\_\_\_\_ Post Code \_\_\_\_\_

H.Phone \_\_\_\_\_ W.Phone \_\_\_\_\_ Mob.Phone \_\_\_\_\_

Email Address \_\_\_\_\_

Preferred method of communication \_\_\_\_\_

Date of Birth \_\_\_\_\_ Age \_\_\_\_\_ Relationship Status \_\_\_\_\_

Occupation \_\_\_\_\_

Partner's Name \_\_\_\_\_ Partner's Occupation \_\_\_\_\_

Names & Ages of children \_\_\_\_\_

---

Referred By \_\_\_\_\_

Have you ever received chiropractic care?                      Yes                      No

If yes, from whom? \_\_\_\_\_ When? \_\_\_\_\_

Are you in a health fund? \_\_\_\_\_ Name of Fund \_\_\_\_\_

Emergency Contact Name \_\_\_\_\_

Relationship \_\_\_\_\_ Phone \_\_\_\_\_

# YOUR HISTORY

## - YOUR JOURNEY OF LIFE -

During the course of your life's journey you may have encountered many stressors. Whilst some of these stressors may have seemed small, they may have had an accumulating effect on your life. Please answer the questions on the following issues that commonly arise through the formative years.

### - PRE-PREGNANCY -

Did your Mum & Dad...	Yes	No	Unsure
Plan and welcome the pregnancy?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Prepare their bodies for pregnancy?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

### - PREGNANCY -

Did your Mum...	Yes	No	Unsure
Have chiropractic care during pregnancy?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Exercise through pregnancy?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Have a nutritious diet during pregnancy?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Get injured during pregnancy?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Smoke or drink alcohol during pregnancy?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Endure stress during pregnancy?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

### - BIRTH PROCESS -

	Yes	No	Unsure
Home birth?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Hospital birth?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Was your birth early/late (according to due date)?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Induced labour?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Drugs during delivery?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Was the delivery long?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Was the delivery difficult?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Caesarean (Elective/Emergency)?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Presentation position: Posterior, breech, correct, transverse, other _____			

### - GROWTH AND DEVELOPMENT -

#### *PHYSICAL*

	Yes	No	Unsure
Physical abuse by siblings/others?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Violently pulled by the arm?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Were you a head-banger?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Did you fall on your head?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Did you fall down stairs?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Were you taught how to care for your spine?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Did you have the chair pulled from under you?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

#### *CHEMICAL*

	Yes	No	Unsure
Were you breast fed? If so for how long?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Were you bottle-fed? If so for how long?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Vaccines received _____			

---

**- MENTAL/EMOTIONAL -**

	Yes	No	Unsure
Was there communication breakdown in your household?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Was there a loss of a close relative?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Was there any stress in the family?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
If yes to any of the above, please give details	_____		

**- LIFESTYLE —**

	Yes	No	Unsure
Do you smoke?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Do you drink alcohol?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Do you drink adequate water?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Do you eat healthy foods?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Do you sleep well?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Are your teeth healthy?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Do you exercise regularly?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Are you physically stressed?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Are you mentally stressed?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Are you being, or have you been, exposed to chemicals?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Are you taking, or have you ever taken, drugs?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

Sports: \_\_\_\_\_  
Hobbies: \_\_\_\_\_  
Accidents: \_\_\_\_\_  
Surgery: \_\_\_\_\_  
Drugs: \_\_\_\_\_

Have you experienced a loss in the past 5 years? (.e.g. relationship, family, business, financial)

\_\_\_\_\_

\_\_\_\_\_

**- HEALTH OBJECTIVES —**

People consult this office with one or more of the following health objectives. Please indicate which apply to you.

- Relief of my symptoms
- Correction of my underlying health problems
- To maximise my health
- To maximise myself, my family's and community health.

You may have specific reasons for consulting this office. If this is the case what are they?

\_\_\_\_\_

\_\_\_\_\_

How would you rate your overall health? \_\_\_\_/10

What would you like your health to be? \_\_\_\_/10

# Informed Consent to Chiropractic Care

Changes to the law now require all chiropractors to warn people of material risks. Chiropractic care is recognized as being an effective and safe method of care for many conditions.

However, as in all health care, there are some very slight risks with chiropractic care. This includes, but is not limited to:

- Your condition becoming worse;
- Disc injuries, rib fracture, sprains/strains (1 in 139,000 in the neck and 1 in 62,000 in the low back) <sup>(1)</sup>;
- Stroke or stroke like symptoms (1 in 5.85 million neck adjustments) <sup>(2) (3)</sup>.

Put in context, chiropractic has been shown to be 250 times safer than anti-inflammatory drugs <sup>(4)</sup> and safer than driving a car <sup>(5)</sup>. Some people may experience some mild soreness for 24 – 48 hours after their adjustments, especially when their body is unwinding <sup>(6) (7)</sup>. This is a normal sign of change, as may occur after exercise or stretching.

Clinical experience consistently demonstrates **unexpected improvement** in people's life. One study indicated that 23% of people experience improvement in some other aspect of their health. <sup>(8)</sup> Of individuals who experience such improvements:

- 26% experienced improvements in their respiratory system;
- 25% in their digestive system;
- 14% circulatory system/heart;
- 14%: eyes/vision.

Broken down into subcategories the benefits were reported as follows:

- Easier to breathe: 21%,
- Improved digestive function: 20%,
- Clearer/better/sharper vision: 11%,
- Better circulation: 7%
- Changes in heart rhythm/blood pressure: 5%,
- Less ringing in the ears/improved hearing: 4%

*(The references for the information quoted above are available upon request.)*

## WorkCover and Veterans' Affairs

All matters involving WorkCover require the person to be referred to this office by a registered medical practitioner and have a current medical certificate to cover any chiropractic services provided. DVA patients are required to have a current request referral D904 from their GP.

## Agreement:

I have read and understand the information above.

I do not expect the chiropractor to be able to anticipate or explain all the risks and complications. I wish to rely on the chiropractor to exercise his/her judgment during the course of procedures which he/she feels at the time, based upon the facts known, is in my best interests.

I have, to the best of my knowledge, provided the chiropractor with a complete and accurate health history. I have had the opportunity to discuss with the chiropractor the nature and purpose of chiropractic adjustments and other procedures as well as other concerns. I understand that results are not guaranteed. I intend this consent form to cover the entire course of my chiropractic care for this and any future presentation.

I hereby request and consent to chiropractic examinations, adjustments and other chiropractic procedures, including scans, x-rays, and other imaging, wherever the chiropractor determines necessary. By signing below I agree to chiropractic care.

# WHAT IS CHIROPRACTIC?

Chiropractic is based on the natural law of homeostasis (balance), which simply states that a living organism (you) has an innate organisation/intelligence that causes it to always express its greatest potential for health and well-being. This organisation can be witnessed in the proper functioning of every cell, tissue, organ and system of your body.

The brain and nerve system controls and monitors the proper function (organisation and expression) of your body. A lack of health can result when your nervous system is impaired or damaged by a misalignment, and/or malfunction of the bones that protect it.

The practice of Chiropractic helps eliminate these malfunctioning areas so your body can work more effectively and, with appropriate health practices, allow you to regain/retain optimum health.

## - HEALTH -

According to Dorland's Medical Dictionary, health is "an optimum state of physical, mental and social wellbeing, and not merely the absence of disease and infirmity".

## - HEALTH POTENTIAL -

We all have a potential for health based on our genetic information plus the situations and events that we have encountered so far in our life.

## - HEALTH FORMULA -

W + F + T = Health

Wholeness - you must have all your body organs and systems

Function - all the parts are working at 100% capacity

Time - the effects of yesterday, today and tomorrow

## - THE KEY TO HEALTH -

You can't do anything about the parts that are missing, and time keeps marching on, therefore the key to health is function. If you can keep the parts that you have today functioning at 100% of their potential for the rest of your lifetime, you'll have your best chance for optimum health. While you must have proper nutrition, a clear mind, rest and exercise, the primary control of your body's function is the nervous system.

## - YOUR BODY -

### **SKULL**

Eight major bones that are knitted together with movable joints. The skull protects the brain and assists in the movement of the spinal fluid.

### **SPINE**

Twenty four moveable bones which surround and protect the spinal cord. From the side, four spinal curves are found. These curves are necessary for proper spinal function.

### **DISCS**

Soft cushions of cartilage which separate spinal bones, allow movement and help create the weight-bearing spinal curves.

### **CERVICAL**

The seven bones which make up the neck area.

### ***THORACIC***

The twelve bones which comprise the mid-back area.

### ***LUMBAR***

The five bones forming the lower back.

### ***SACRUM/PELVIS***

Three large bones which form the tail bone and hips.

## **- NERVOUS SYSTEM -**

The nervous system controls and coordinates all the cells, organs and systems of your body and adapts the organism (you) to the environment. The nervous system consists of:

1. **Brain:** Three highly developed modules which function as the computer control centre for the body.
2. **Spinal Cord:** An extension of the brain that carries information to and from the brain and the body.
3. **Spinal Nerves:** Bundles of nerves that branch from the spinal cord and then exit the spinal column.
4. **Peripheral Nerves:** The vast network of nerves that divide from the spinal nerves and connect with every cell of the body.
5. **Organs and Cells:** These have their own information processing abilities. Your heart and gut, are considered 'brains' in their own right.

## **- WHAT WOULD HAPPEN IF YOU INTERFERED WITH THE NERVOUS SYSTEM -**

Interference to the nervous system always results in malfunction of your body and reduces the expression of your health potential.

## **- VERTEBRAL SUBLUXATION COMPLEX -**

Major interference can occur when there is misalignment and/or malfunction of the spinal bones and their movement. This is called the Vertebral Subluxation Complex (VSC) and is a very serious and disabling condition that affects the brain, spinal cord and the spinal nerves.

## **- SPINAL DECAY -**

When the joints of the spine are not moving and functioning properly over time they begin to break down. The spinal decay that results from VSC progresses from a condition that is easily corrected to a permanent state that is unable to be corrected.

## **- HOW IS NERVOUS SYSTEM INTERFERENCE PRODUCED? -**

The chain of movement from the top of our head to the tips of our toes is constantly adapting to the stressors of life. When your body meets a force that it can't deal with, something has to give. This is when we see vertebrae going into too much motion or not enough motion in order to adapt to the change. As your body attempts to correct this situation VSC can be established. These stressors come in three general categories:

- **Physical** – birth trauma, falls, sports injuries, stressful activities that are done repeatedly or with one side of the body, car accidents, etc.
- **Chemical** – water, foods, medications and environmental toxins
- **Mental/Emotional** – thoughts and beliefs, relationships and work stress

## **- CHIROPRACTIC ADJUSTMENT -**

A chiropractic adjustment is the physical means of correcting the VSC. There are numerous techniques in chiropractic. Your chiropractor will explain the technique that they use.
